点击Download the binary release

### Downloads

There are different ways to download and install Code::Blocks on your computer:

- **Download the binary release**

This is the easy way for installing Code::Blocks. Download the setup file, run it on your computer and Code::Blocks will be installed, ready for you to work with it. Can't get any easier than that!

- **Download a nightly build** There are also more recent so-called *nightly builds* available in the **forums**. Please note that we consider nightly builds to be *stable*, usually, unless stated otherwise.
- Other distributions usually follow provided by the **community** (big "Thank you!" for that!). If you want to provide some, make sure to announce in the forums such that we can put it on the official C::B homepage.
